MISTRAL

Fuel tank

High-density polyethylene offering high chemical, mechanical and fire resistance. Tanks feature: one central column for increased rigidity of the tank and easy securing to the boat, lateral baffles to reduce fuel tossing.

Come with integrated sensor including:

- nozzles (flue / diesel)
- 1 vent, ext. Ø 16-18mm

BLIZZARD

EC ISO 8099

Blizzard tanks

Horizontal model made from odour-free PE HD. Available in 4 sizes (40 L ; 60 L ; 80 L ; 100) and 2 versions :

- Holding tank alone.
- Complete set including a holding tank, a diaphragm pump (in 12 V or 24 V), a gauge, and fittings. Accessories available : sender, vented loop, valve, filter, deck filler...

Code		Capacity (lt)	Pump model	Length (mm)

196870		100	-	1245

ZEFIRO

Zefiro Tanks

Vertical model made from odour-free high-density polyethylene.

Gravity discharge : when installation is carried out at more than 0.5 m above the waterline, the tank can be emptied without pump. Can be mounted on a bulkhead.

Accessories available : sender, gauge, vented loop, valve, filter, deck filler,...

- Shaped for an effective discharge
- 1 inlet and 2 outlets Ø 38 mm - G 1 1/2"
- 1 vent Ø 25 mm - G 1 3/4"
- 1 inspection hatch: Ø 127 mm
- Plate compatible with VDO standard senders
- Compatible with diaphragm pumps and macerators (12 or 24 V)

Deck fillers for gas, diesel, water & waste

The Deck Filler range includes deck fillers suitable for water, fuel and waste. They are designed in such a way that the full lid area is totally covered, which makes the final look much more attractive. Each deck filler could have a different function, which will always be clear - by using the relevant sticker (water, fuel, waste) included in each fill's packing. They are made of highly resistant plastic and are available in 38mm and 50mm diameter.

Deck filler

Glass reinforced polyamide fillers, st. steel caps

Construction in 2 materials to combine sturdiness, lightweight and stylish design:

- Deck filler's body in glass re-inforced nylon.
- Cap in 316 L stainless steel
- Open with dual imprint key or manually thanks to finger-grip cap

Fresh Water Inlet

Nuova Rade fresh water inlet is the perfect connection between the boat's water network and the shore water supply. It is then easy to cook or have a shower when at the dock, without using water from the tanks.
(Not suitable for filling the water tanks).

The complete set includes :

- An ABS housing with splashproof cover
- A pressure regulator which accepts up to 7.5 bar (90 psi) working pressure, compatible with most appliances and equipment on board.
- A non-return valve
- A male quick-coupling fitting for garden hose connection
- Male 3/4" threaded connector to the boat's water system

Code	Connector	Housing
47812	Straight	White
47813	Elbow	
47814	Straight	Chrome
47815	Elbow	

Sea Water Outlet

Used in conjunction with a pump and thru-hull fitting, the sea water outlet produces pressure sea water on the deck (to wash the deck or rinse the fish). Also perfectly suitable with fresh water.

The complete set includes :

- An ABS housing with splashproof ASA cover
- A female quick-coupling fitting for garden hose connection. Features a non-return valve
- Chrome brass construction with stainless steel lugs, for optimum corrosion resistance
- A locking flange
- Male 3/4" threaded connector to the boat's water system

Deck shower/Mixer tap

Specifically designed to combine two functions in one single housing, they allow major room saving and easy access. In addition to their simplified installation process, they have been engineered to combine optimum comfort, durability and absolute safety.

Available with white or chrome cover, the housing fits in any deck or transom to give the boat a clean uncluttered look and can be mounted vertically or horizontally.

Supplied with drilling template.

1. Place the bottom end A of the hosepipe into the tank with the liquid that you wish to pump out and hold the top end B of the hosepipe upright

2. Shake the bottom end of the hose vigorously up and down until the liquid rises in the hose, continue pumping until the liquid passes balance level

ATTENTION: Make sure that the empty container is placed below the level of the container you wish to empty

3. Stop pumping and place top end of the hose in the container you wish to fill and the liquid will flow automatically

Ventilator Clam Shell, White

For additional protection against heavy water intrusions. Suitable for 3" and 4" ventilators. To be fixed on top of the ventilator with 3 nylon fasteners. Made from polyamid, shock and UV-resistant. Compatible with common sealants and impervious to acetic acids.

215 x 180 x 70 mm
Code..... 54386

Ventilator Connectors Ø 76,2mm

Suitable for Ø 76,2 and 70 mm ducting hose. Manufactured from polypropylene for a good UV-resistance. It is extremely shock and load resistant, compatible with common sealants and impervious to acetic acids. Made to support a hose along a bulkhead. On the straight model, ventilation is ensured by a louvred opening, which also prevents heavy water intrusions

Quick and easy installation :

Drill a Ø 76,2 mm hole. Notches ensure the perfect hold of the adapter in the bulkhead. Secure the adapter with 4 x M4 screws and sealant for waterproofness (compatible with most common sealants). Clip a louvred vent if necessary : moulded-in ribs contribute to the vent's secured position. Fit the hose on the adapter. Two lugs hold the hose, while waiting to be secured with stainless steel hose clips (not supplied).

Code	Model
47514	straight adapter
54389	elbow adapter
54390	5 mm flange

Ventilator Connectors Ø 102mm

Polypropylene construction :
Shock and load resistant, impervious to fuel and acetic acid. Notches and lugs hold the hose in position ; in addition, the hose must be secured with stainless steel clamps. Connector is easy to fit, by means of 4 screws outside.

When installing the blower, we recommend to place the exhaust louvred ventilator in a reasonably protected area (for example, in the cockpit rather than on the transom), so as to prevent water intrusion into the ventilation circuit. An extra precaution consists in building an elbow in the hose.

Thru-Hull 90°

Elbow thru-hulls are the answer to the most common plumbing issues:

- Allow major room saving, as they can be used with a hose running along the hull
 - Avoid making a bend into the hose, which can sometimes be a source of leak or breakage.
 - Require a simplified installation process inside the hull, carried out by one person only.
- You can hold it firmly with one hand, while screwing with the other hand

Transom Pad, 320x220mm

 Offering protection against outboard clamp damage for most sizes of transoms. This pad is Made of rigid UV stabilized polypropylene, with a non-slip surface for secure engine mounting.
 Dimensions: 320x220x64mm

Code	10314	72032	72033
Colour	White	Grey	Black

Transom Pad, 230x86mm

 This pad is suitable for smaller transoms and outboards. Made of rigid UV stabilized plastic. The pad protects against damage whilst providing a secure non slip surface for outboard engine mounting.
 Dimensions: 230x86x5mm

Code	10317	72034	72035
Colour	White	Grey	Black

Transom pad

Rigid non-slip plastic. Prevents outboard clamps from damaging the transom.
Dimensions : 250 x 90 mm.

12010	No foam-filling	57	35	9	0,9	91

Holder for lifebuoy ring & light

Glass-reinforced plastic.
Fits easily on any rail Ø 18 to 25 mm.
Code.....45185

Set Lifebuoy Ring SOLAS/Lifebuoy light/30m rope/case

Set of products complying with SOLAS 74.96 standard:
- 1 ring lifebuoy (code 16095)
- 1 floating light (code 196482)
- 30 m of yellow floating retrieval line, Ø 8 mm.
Cleverly packed in a yellow coated fabric storage bag, impervious to UV-rays, and fitted with clips for attachment to pulpit.

Code.....35926

Lifebuoy Ring Container

Container alone
Dimensions: 84 x 108 x 31 cm (H x W x Depth)
Code....**40212**

**Container with door
for Lifering buoy Ø 60 or 75 cm**

Features a transparent round opening to check the presence of the buoy.
Dimensions: 90 x 90 x 22 cm (H x W x Depth)
Code....**196992**

Container supplied empty.
Buoy must be ordered separately.

Code	Description	For container model
40213	Pole for Lifebuoy Ring container	standard
40214	Mounting kit for Ø 6 cm rail (banister & jetty balustrade)

Container with door	200	10	5	25	25	2,3 x 1,1 (oblong hole)

“Delfino” Lifefloats with stripes

Lifefloats approved by the Italian Merchant Marine. Constructed in indestructible plastic material. Filled with polyurethane foam. Provides efficient buoyancy in the event of shipwreck or Man Overboard.

Allows the victims to gather in order to ease survival and rescue. High density polyethylene, filled with polyurethane foam for buoyancy. Fitted with reflecting stripes for added visibility. Braided rope is reeved through reinforced eyelets at regular intervals (2, 3 or 4 eyelets on each side) to account for a larger number of persons grasping the rope.

Motoring Cone

This signal should be displayed on sailing boats, when travelling under power. Indicates use of mototr on a sailing boat. Folds flat.

Code	Dimensions (mm)
16206	350x340
39552	470x330

Anchor Ball

Internationally recognised daytime signal used by boats when at anchor. Made of tough polypropylene. Folds easily for storage.

Code	Diameter (mm)
16185	300
39553	350

Signalling mirror

One of the most reliable, effective signalling devices : features an aiming spot to assist you in flashing in the intended direction. Ø 86 mm.

Code....27177

Fog horn

Highly resistant polyamide.
Length: 30 cm Ø 8 cm

Code.....16183

Flushmount Safety Ladder

Helps any crewmember get back on board easily without external help. Suitable for current use (bathing) or in case of Man Over Board. Consists of 3 polypropylene steps and 1 st. steel handle assembled by a highly resistant line, (bright yellow Ø 3mm polyester). Ladder is stored in a polyamide tube with a grey polypropylene cap, for optimum protection and waterproofness.

The Man Over Board removes the cap, pulls the ladder down and climb on board.

- Light
- Very easy flush mount (likr a thru-hull fitting).
- Transom or skirt mount (sail and powder boats), just above waterline.

Stella LED fish torch,

LED flashlight, with night sensor.

Stella Fish (yellow): flashlight, 20 pulses/min.

Autonomy > 50 days (as an indication only).

Stella Fish Torch is secured to the net or other fishing device left at sea at night-time. A darkness sensor activates the LED flashlight and allows an easy spotting of the net or fishing place. An on/off magnetic switch shuts off the automatic light system (for storage)

Code.....196928
